

Does your political party empower you?

Universal Healthcare. Clean Elections.
A Living Wage. Renewable Energy.
Quality Education Affordable Housing.
End to Death Penalty. Right to Organize.
FAIR Trade, no FTAA. Safe Food Supply.
No to Endless Wars.
Environmental Responsibility.

For Greens, these are just some of our Platform goals.

Actually, the Green Party Platform leads to Goals not much different from those the Democrats once valued in the 40's - 60's— but goes beyond. It's updated to our current reality and addresses the planet we need to care for.

You can't have a healthy planet if you don't have healthy democracies, where the People's will and their votes are counted, and decisions affecting us all are the People's business, NOT Big Business.

Third parties and activism have historically been the harbingers of change, such as abolition, women's right to vote, the 8-hour workday, and civil rights legislation.

It is time for a re-birth of REAL democracy in this land. It's high time to roll up our sleeves and work together towards that end.

The **Miami-Dade Green Party** invites you to come to know more about us, request a workshop, attend meetings and events, and help build the solid alternative we will ALL need in the times ahead...

The Green Party—Today's Party for Tomorrow's World

Bush would not be in the White House today *IF* ...

- ... Jeb Bush & Katherine Harris had not illegally removed 50,000+ eligible voters from the roll, alleging they were felons.
- ... the US Supreme Court justices had recused themselves, upheld the Constitution or respected the Florida Supreme Court.
- ... bankrupt, cheating Enron had not been Bush's #1 donor.
- ... Gore had asked for a statewide recount in Florida.
- ... Gore had won in his home state of Tennessee.
- ... Gore had fought to assume his rightful role as President.
- ... Alex Penelas had actually campaigned for his "fellow" Democrats.
- ... the "butterfly ballot" hadn't made 5000 Jews "vote" for Buchanan.
- ... **200,000+** (yes!) **Democrats** in Florida had not voted for **Bush**.
- ... the ± 35,000 Democrats in Florida who voted for Nader had changed their minds.
- ... Natural Law, Libertarian, and Socialist voters had voted for Gore.
- ... Election Supervisor Leahy had not stopped Miami-Dade recount.
- ... Democrats had run a good campaign & denounced Bush's lies.
- ... Florida had implemented **Instant Runoff Voting*** (www.fairvote.org)

Pick a reason. Blaming Greens may be easy, but not factual.

The Green Party supports workers, the environment, social justice, sustainability, democracy and fair trade here and in over 100 countries. We advocate healthcare for all. As the only party to grow since 2000, Greens bring new voters to the polls. Know the facts. Greens fight for REAL election reform, ethics, and big \$\$ out of government. In South Miami it is a Green Commissioner who leads the fight for the voter-verifiable paper ballot and domestic partner benefits for all city employees. Supporting Green growth makes sense for your community & the planet. Do your part.

* With **IRV***, you can vote for 3rd party candidates without "Splitting the Vote" and electing whom you least want. It saves \$ millions, by guaranteeing a majority winner with no new election. By ranking your choices, (1 2 3) if your 1st choice doesn't win, your 2nd choice counts towards choosing the one candidate with a clear majority.
